"Scarborough Fair" is a traditional English song that was particularly common in Yorkshire and Northumbria. The song (collected by Frank Kidson in 1891) had various refrains including, "parsley, sage, rosemary and thyme"

Scarborough

A town in North Yorkshire, England which had an annual fair. In the later 19th and much of the 20th century it was a popular seaside resort for holiday makers, especially from Yorkshire, as it could be easily reached by train.

The famous melody for “Scarborough Fair” was collected from Mark Anderson (1874–1953), a retired lead miner from Middleton-in-Teesdale, County Durham, England, by Ewan MacColl in 1947.
